

# Cookies and Cream Ice Cream

## Ingredients:

- Vanilla Ice Cream Base
- 18 crushed Oreos

## Instructions:

- Prepare the ice cream base.
- Start the ice cream attachment at the stir speed and then pour in the ice cream base.
- After 20 min of churning, put in some of the cookies and allow them to be churned into the ice cream.
- Transfer the ice cream to a larger bowl by scrapping out of the churn bowl with a rubber scraper.
- Stir in the rest of the cookie crumbs and chunks into the soft set ice cream.
- Eat soft set, or cover and freeze for a few hours to firm up the ice cream. (We usually can't wait!)
